

Fast, Secure & Intuitive
Decentralized Exchange
Built by Traders, for Traders

About Sologenic

Sologenic connects traditional financial systems with blockchain-based assets and enables cryptocurrency trades against any asset class. Sologenic allows users to tokenize 40,000+ Stocks, ETFs & Commodities from more than 30 global stock exchanges 24/7 from every corner of the globe.

Sologenic DEX

The Sologenic DEX is an advanced decentralized trading platform that allows users to trade (peer-to-peer) any fraction of tokenized assets, SOLO, and XRP while having custody of their private keys which provides maximum security and trust.
